

City of Houston Climate Action Plan

Subject: Invitation for City of Houston Climate Action Plan Meeting

Dear (First Name)-

I am hosting a community meeting to discuss how the City of Houston is addressing climate change. The City of Houston Climate Action Plan will look at issues of importance to the entire community, including transportation, air and water quality, and energy, and help make our city better prepared to face expected climate impacts.

The reason I am hosting this meeting is to give community members like us an opportunity to have our voices heard. We need to be part of this process. Please join us to share your insight, thoughts and ideas on the City of Houston Climate Action Plan and enjoy the good company!
